Sociale netwerken - Wie is het minst populair in de klas?

<https://www.distributed-systems.net/index.php/boks/gtcn/>

Classroom example - positive nominations

- Clear distinction between boys (“●”) and girls (“○”)
- Relation between 19 and 20 is important
- There are a few “isolated” children (8 & 10)

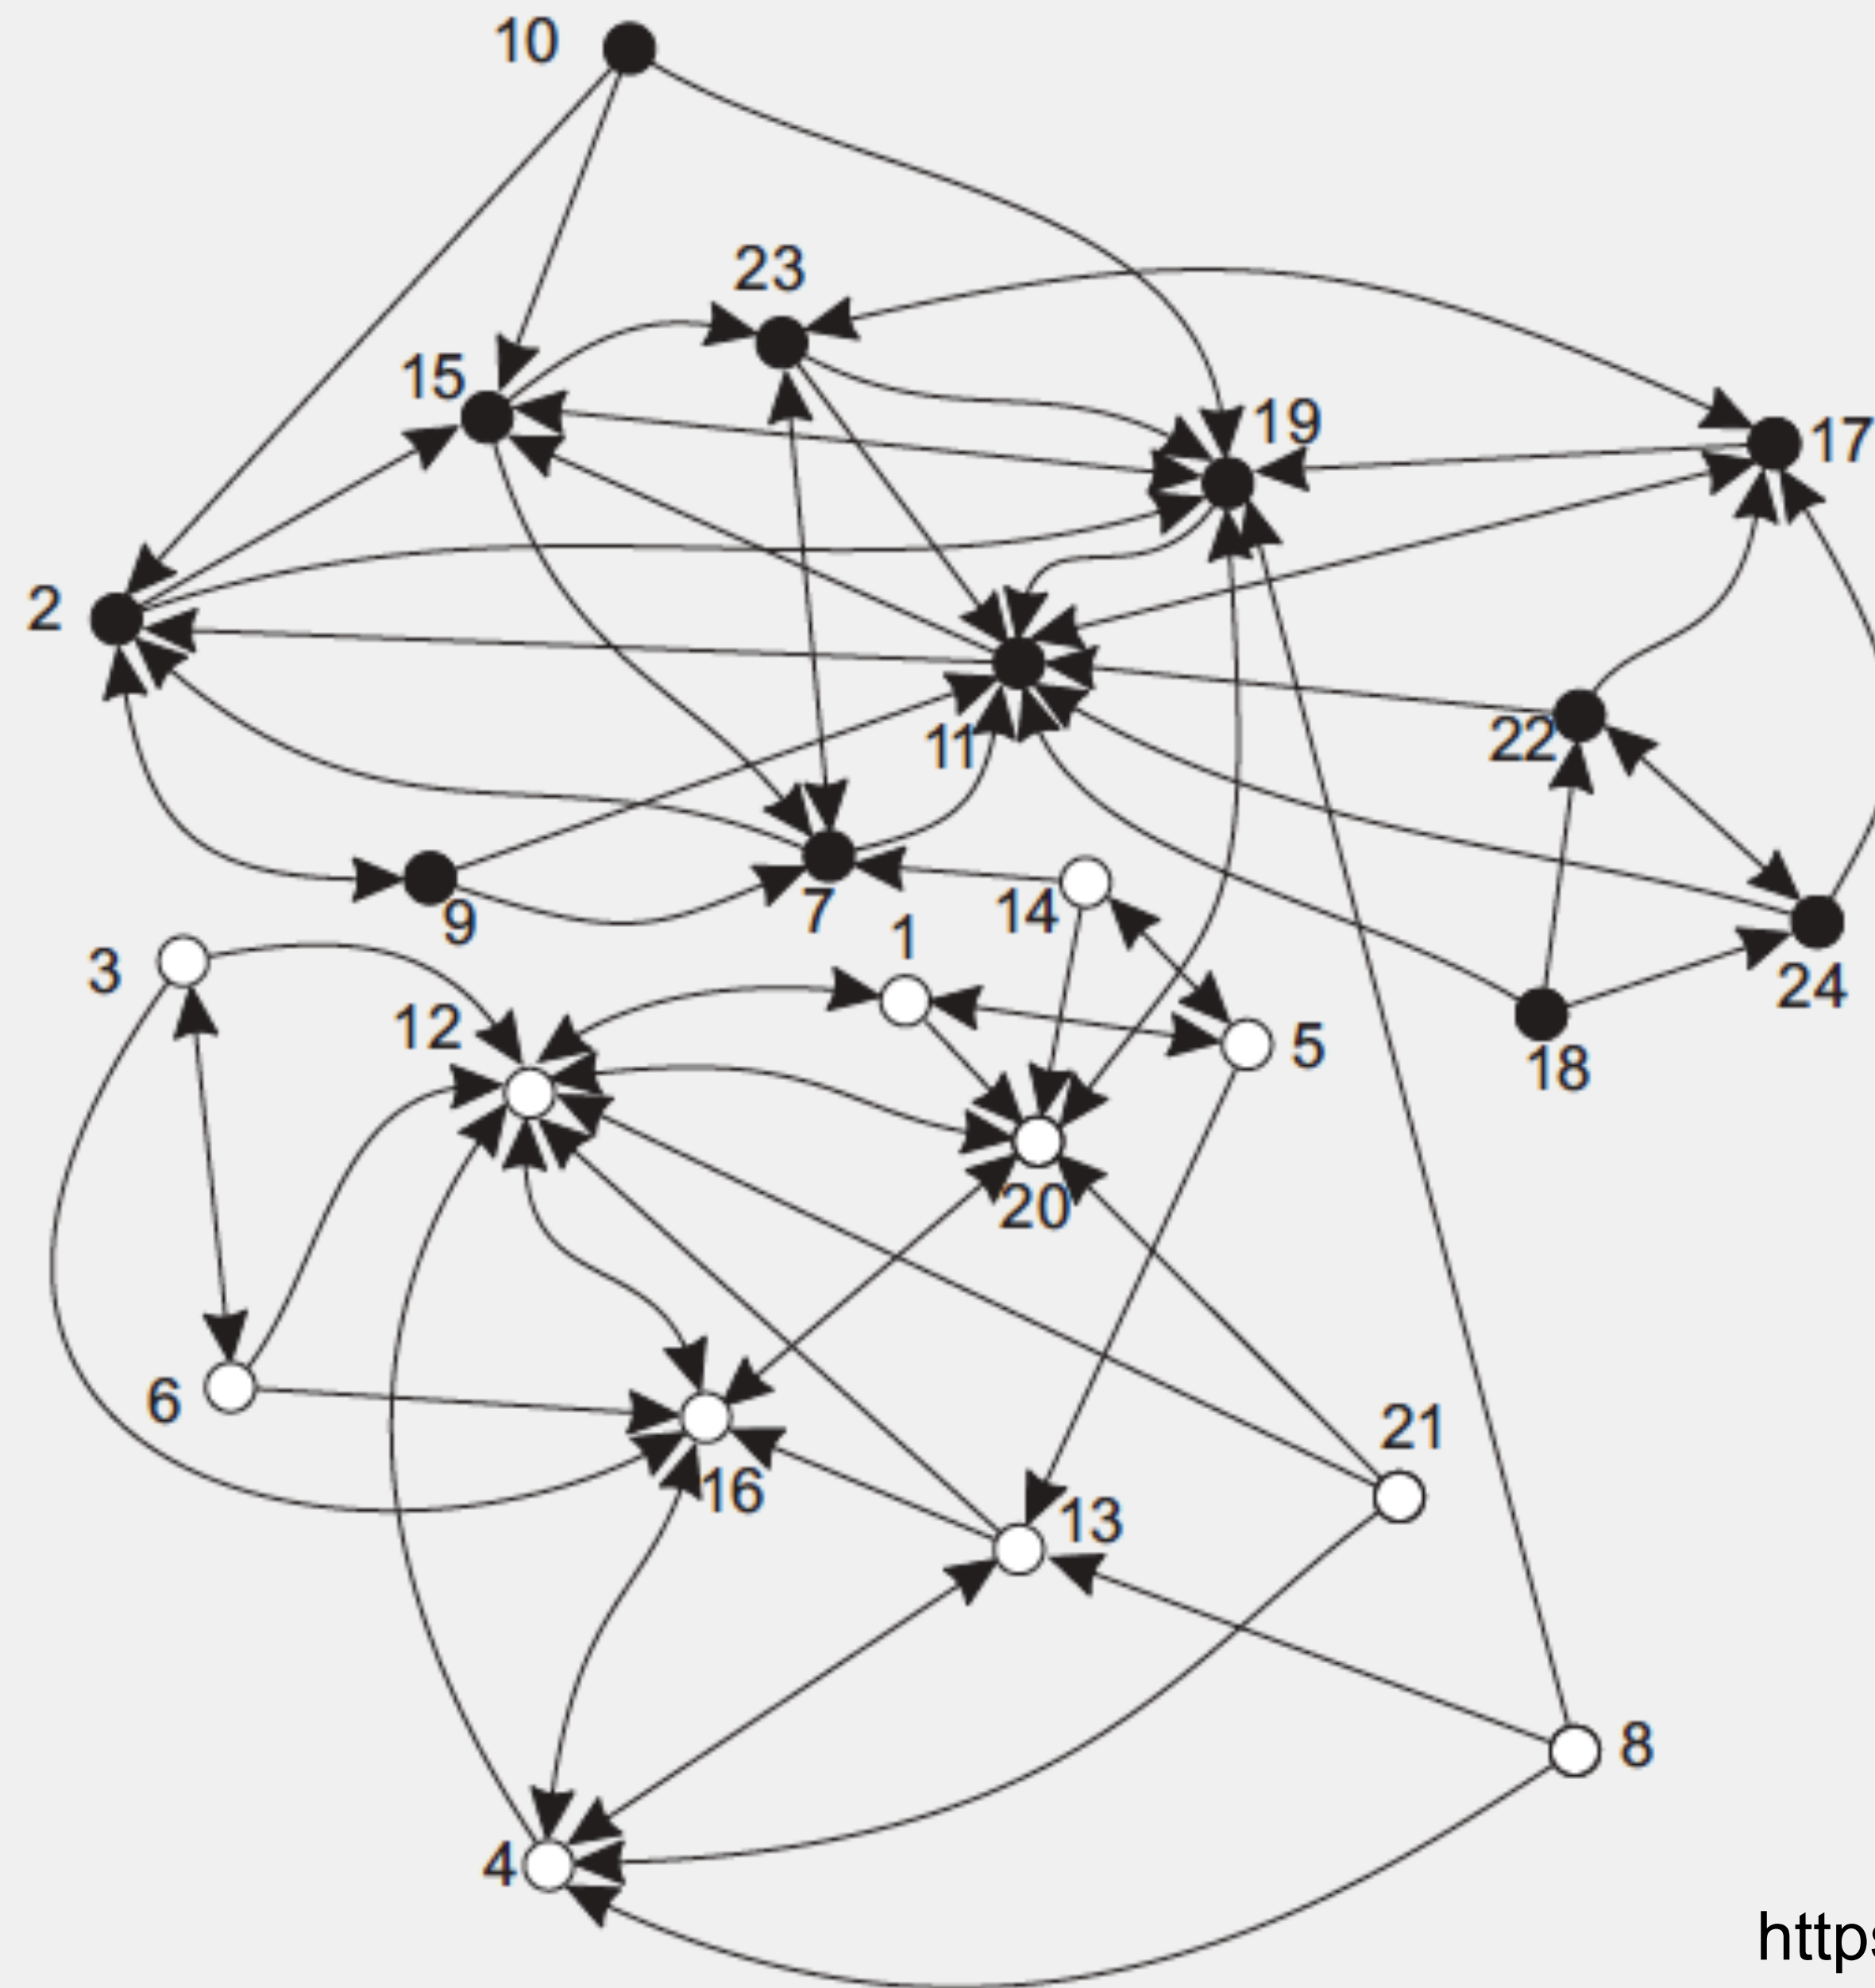

Issue

Can we discover these properties **mathematically**?

<https://www.distributed-systems.net/index.php/boks/gtcn/>

**Degree, Centrality, Closeness,
Eccentricity, Betweenness,**
