

Recurrence Plots - Software

Recurrence plots come in many flavors, more next week, check:

<http://www.recurrence-plot.tk/>

By Norbert Marwan

Also links to a great Matlab
Toolbox!

Command line software from
Webber & Zbilut:

<http://homepages.luc.edu/~cwebber/>

Generally it is a good idea to re-scale your data relative to either the mean or maximum distance separating points in reconstructed phase space.

This way data is scaled to itself which allows comparisons across data sets.

No Rescale
