# Recurrence Based Approach

- Essentially "model free"

- Few data assumptions

- Can detect and quantify nonstationarity, etc

- Recurrence Networks can deal with multivariate time series data

# Quantifying State Dynamics

# Recurrence Based Approach

## Quantifying State Dynamics

• Essentially "model free"

• Few data assumptions

• Can detect and quantify nonstationarity, etc

• Recurrence Networks can deal with multivariate time series data

# Distance Matrix >> Recurrence Matrix
